Experiment 4-A

Vehicle Service Request Form Using Basic Fields

Aim

To design and build a Vehicle Service Request Form in Zoho Creator using all thirteen Basic Fields available in the Form Builder, so that vehicle owners can pre-record service and repair requests and the service center can schedule bays and technicians in advance.

Procedure

1. Vehicle owner opens the public form link shared by the service center through its website or SMS.
2. Owner fills in personal, contact, vehicle, issue, and scheduling details across the four sections.
3. On clicking Submit, Zoho Creator validates all mandatory fields and formats.
4. A new record is created in the Service_Request_Report.
5. An automated acknowledgement email (using the Email field value) is triggered to the owner.
6. The service center reviews the report, filters by Service Type and Preferred Service Date, and assigns a technician and service bay before the vehicle arrives.

Fields Used

Field Type	Field Name	Purpose
Name	Owner_Name	Full name of the owner (First / Last)
Email	Email_Address	Validated address for estimates and status updates
Address	Pickup_Address	Address for pickup/drop service
Phone	Contact_Number	Validated mobile number for updates
Single Line	Vehicle_Registration_Number	Number plate, e.g. TN 34 AB 5678
Multi Line	Issue_Description	Free-text description of the problem
Number	Odometer_Reading	Current odometer reading in km
Date	Preferred_Service_Date	Preferred date to bring in the vehicle
Time	Preferred_Dropoff_Time	Preferred drop-off time slot
Drop Down	Vehicle_Type	Single-select vehicle category (e.g. Hatchback)
Radio	Service_Type	Routine Service / Breakdown Repair / Accident Repair
Multi Select	Additional_Services_Requested	Add-ons: Car Wash, Interior Cleaning, Tyre Rotation
Checkbox	Authorize_Estimate_And_Repair	Owner authorization to prepare estimate and proceed

Form Layout

- **Section A, Owner Details:** Owner Name, Vehicle Registration Number, Vehicle Type
- **Section B, Contact Details:** Email Address, Contact Number, Pickup Address
- **Section C, Vehicle & Issue Details:** Odometer Reading, Service Type, Additional Services Requested, Issue Description
- **Section D, Scheduling & Authorization:** Preferred Service Date, Preferred Drop-off Time, Authorization checkbox

Validation Rules

- Owner Name, Phone, Vehicle Registration Number, Vehicle Type, Service Type, and Authorization checkbox are mandatory.
- Email format validation enabled.
- Phone uses country-code format for Indian numbers (+91).
- Odometer Reading restricted to positive values only.
- Preferred Service Date disallows past dates.
- Form cannot be submitted unless the Authorization checkbox is checked.
